# Lower Your Company's Tax Bill with Over \$500,000 in Tax Incentives

## Section 179: Deduct up to \$500,000

Many companies prefer to accelerate depreciation on business assets during the first year versus over several years. With Section 179, you may write-off up to \$500,000\* lowering the cost of equipment acquisition! This means you save on business equipment, technology, commercial vehicles, and more. Plus: Bonus Depreciation is currently available for additional savings!

## Make a Profitable Decision

Let Ascentium structure your business financing payments to meet your cash flow needs and provide tax savings!

## Tax Savings Example
